

Cygnets Model Boat Club Maidstone

I.C. Sports Trophy, 2009 - Round 4

A short report for the June race of the series, as there is not much to report on if there are very few boats left on the water!

The first race of the 12's seemed to get under way with little fuss, and all boats starting the race together. Within eight laps, all had retired with various breakdowns. For the second race of the 12's only three started, being reduced to two as Mike's boat failed again as soon as it hit the water.

We decided to move onto the 25's quickly to see if we could salvage some dignity, as one of the spotters for a short while today was Peter Clayton, the Club Commodore.

The first race of the 25's was a near mirror image of the 12's. By lap eight again, Mick was left to complete his laps alone. The second race only had two starters, Mick and Paul, and Paul's boat spun out on lap twenty leaving Mick once more to gain another race win.

Flooded electric's, flooded carburettors; holes in the hull having caught another boat's propeller and various IC gremlins all have to be sorted before the next race. As they say... "that's racing".
